Would you like to install this device software?

Name: Afinia Label Printers
Publisher: Microboards Technology LLC

Always trust software from "Microboards Technology LLC".

You should only install driver software from publishers you trust. How can I decide which device software is safe to install?

d Click **USB** button

e Connect printer to PC

USB
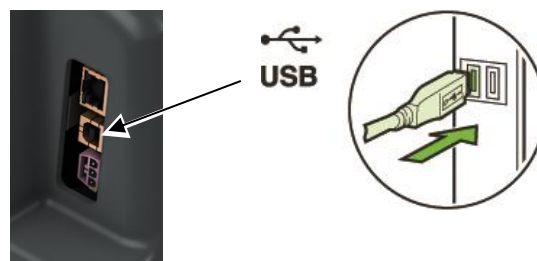

**5** Load Media

a Loosen Mandrel Knob and remove plate
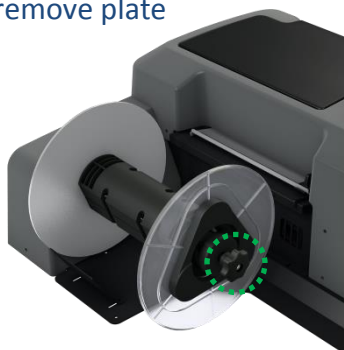

b Slide roll onto mandrel up to the fixed plate

c Replace removable plate and tighten mandrel knob

d Insert stock into input slot under label guide and against right side

Push stock in until auto-feed begins, then adjust Paper Guide

Troubleshooting

If the L501 Label Printer isn't printing :

- Check for error messages on the control panel
- Verify selected media matches loaded media type
- Verify job sent to correct printer

If stock won't load:

- Wait until printer is initialized or idle; media LED will be blinking once a second when ready
- If media LED is blinking rapidly, press **Unload** button and try again
- Unwind more slack from label roll and try again

If the print position on the label is not correct:

- Watch the L501 Adjusting Print Position video

    - or –

- See "Adjusting Alignment for Printing" on page 23 of the User's Manual
- Verify you have the correct label size selected

If the label size you need isn't available:

- Watch the L501 Custom Label Size video

    - or –

- See "Creating Custom Label Sizes" on page 25 of the User's Manual
