

## **Tabletop Digital Label Finishers**

## Cut any shape digitally, without the use of dies

The DLF-220S Dual Plotter Digital Label Finisher integrates unwinding, laminating, contour cutting, waste removal, slitting, and rewinding within a unified process.

Designed for on-demand, short-run label finishing, the system incorporates two plotter cutters to optimize cutting efficiency. This feature is not only intended to enhance production speed, but also to offer cost-effective operation for businesses looking to manage diverse label finishing demands effectively.
